Remember that in order to be successful with traffic, you need to make it convert.

A Quick Reminder

Remember that to get traffic is one thing. To make it convert is another.

In order to profit with traffic (in most cases), you will need:

- A squeeze page to collect emails or sales page to collect sales from visitors. I recommend that you only email products after already providing value to your subscribers.
- An autoresponder to keep in touch with your subscribers.
- To mail your list often and provide value.

To help you with your traffic efforts, I have attached a few bonuses along with this eBook.

- 50 amazing call-to-actions for immediate use
- 30 marketing “power words”

The Truth About Traffic

Traffic: the word that terrifies most and often separates those who succeed from those who have failed in their search to make money online. The truth is... it doesn't matter what you are selling or promoting... if no one sees it, you have NO chance of actually selling it. You're smart and that's a simple concept, but actually getting traffic is a different story. By not having traffic to your site, offer, or product, you are setting yourself up for **guaranteed failure**. Most think that traffic is something that you have to spend hours, days, or even weeks "working on" before they see any results. That's where they would be 100% wrong. There are many different ways to draw traffic to your website easily and quickly in the next few minutes.

The first thing that you should understand about traffic is that there are two roads that you can travel:

1. The Paid Route: Paid traffic is great for those who don't feel like putting in even minimal effort to get results that they desire. This is an

approach that can yield great results, but can also be a complete disaster. I've personally lost \$1,000's using paid traffic, but have also had decent results. Use with caution. For the paid traffic sources in this eBook, I will be using very inexpensive, yet **extremely** powerful sources.

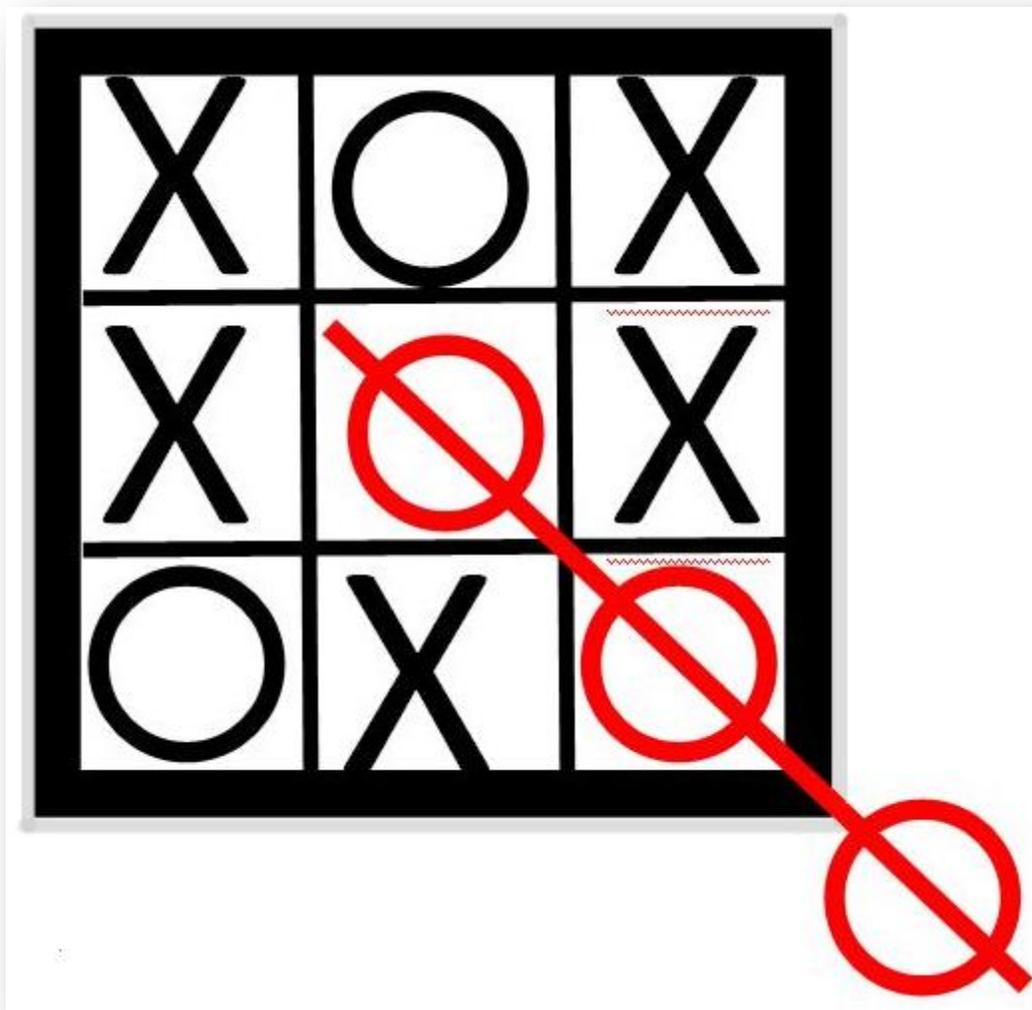

2. The Free Route: My favorite route. I'm a bit of a pessimist and worst case scenario type of guy (which has saved my butt several times in business) and like to make sure that if I am not going to get much gain that I am not going to lose anything at the same time. Many people don't believe that this route leads to much profitability because the visitors "don't convert." The reason for this is simple - they are using free **untargeted** traffic methods. "Free" and "untargeted" are definitely not the same thing. There are plenty of untargeted paid traffic methods that are just as (if not even more) useless. Massive amounts of traffic is awesome, but if it isn't making you money... what's the point?

When it comes to traffic, look at it like an interstate - there is gold at every exit. It's simply a matter of finding it. If you don't bother to look, how will you ever expect to find success - with any source? But today, I'm going to get you started down the road to fast traffic goldmines. Remember that using multiple methods at once will skyrocket your efforts. Also remember that it is important to obtain targeted traffic that is going to increase your authority in your niche.

Hopefully, by the end of this eBook, I prove to you that it is indeed possible to find these methods quickly.

The real message of this eBook?...

Think outside the box.

Fast Traffic Secret #1 - Bubbles (FREE)

I can hear you now. “What the heck is Bubbles?” Bubbles is an online community that pays people to write articles and interact with others (they have an awesome brand new design that makes their site easy to use). However, don’t be distracted by the whole “make money by writing articles” thing. Not important. However, if you can see past that, you will realize that this is an online community of people who are getting paid to read articles and interact with them... You will realize that this is a marketing goldmine...

Did you see that? According to SiteInfoTool, Bubbles receives an estimated 187,817 unique visitors per day! Even if

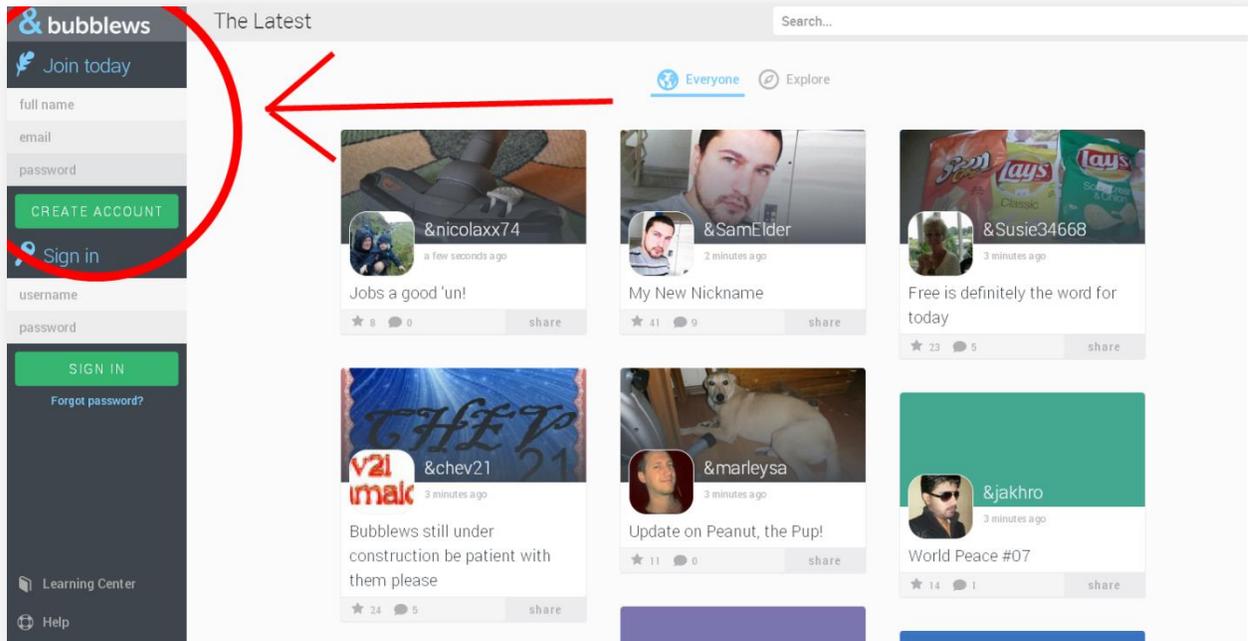

this isn't exact, even half of that is HUGE! *cough...marketing goldmine...cough*

So...

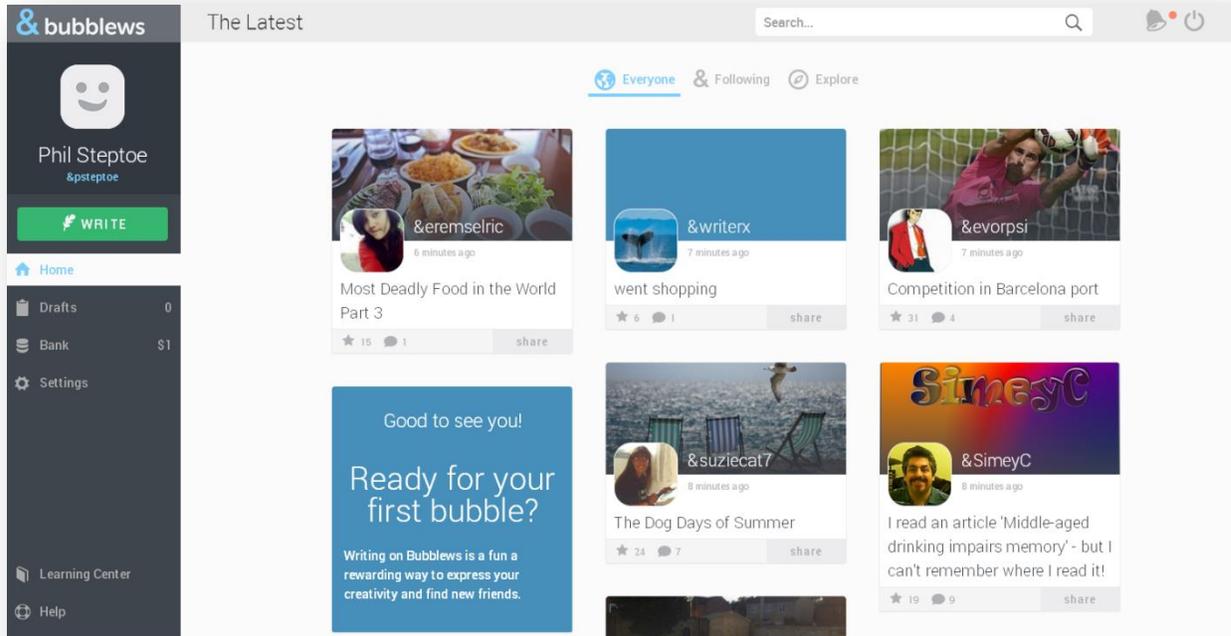

What does that mean for you?

Simple. It means that you have a chance to turn them into a visitor, subscriber, or buyer - or all three of the above. As soon as your article is made, it will be bumped to the top of that respective category. You can create up to 10 articles per day on Bubblews, meaning that you can wrack up hundreds of visitors per day with this source alone quickly and easily. This even works very well for small offline businesses and building social followers and presence. The great news for this one is that with a basic approach, you can also rack up TONS of money in affiliate commissions or sales - **if you do it properly**. This eBook wouldn't be complete if I didn't show you how to do just that.

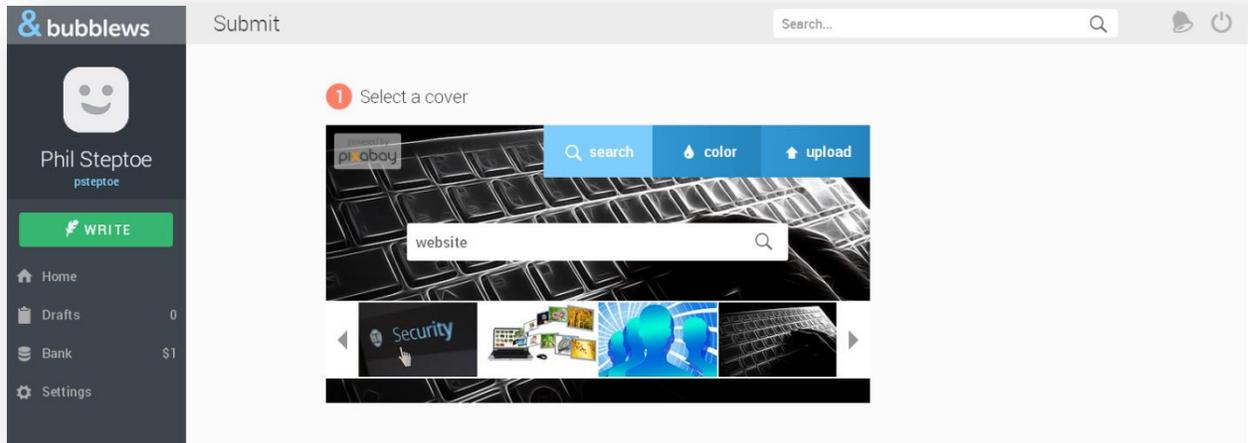

Step 1. - Go the <http://bubblews.com>. Create an account. Fill out the blank fields with your real information to create an account. Click “Create Account.”

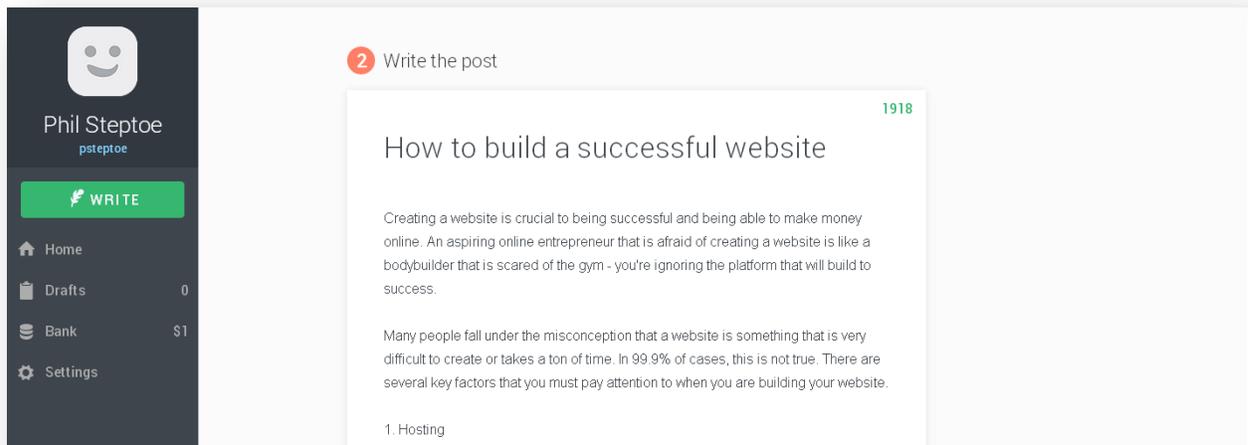

Step 2. - Login to your dashboard. It should look like this. Click on the “Write” button below your profile picture and name.

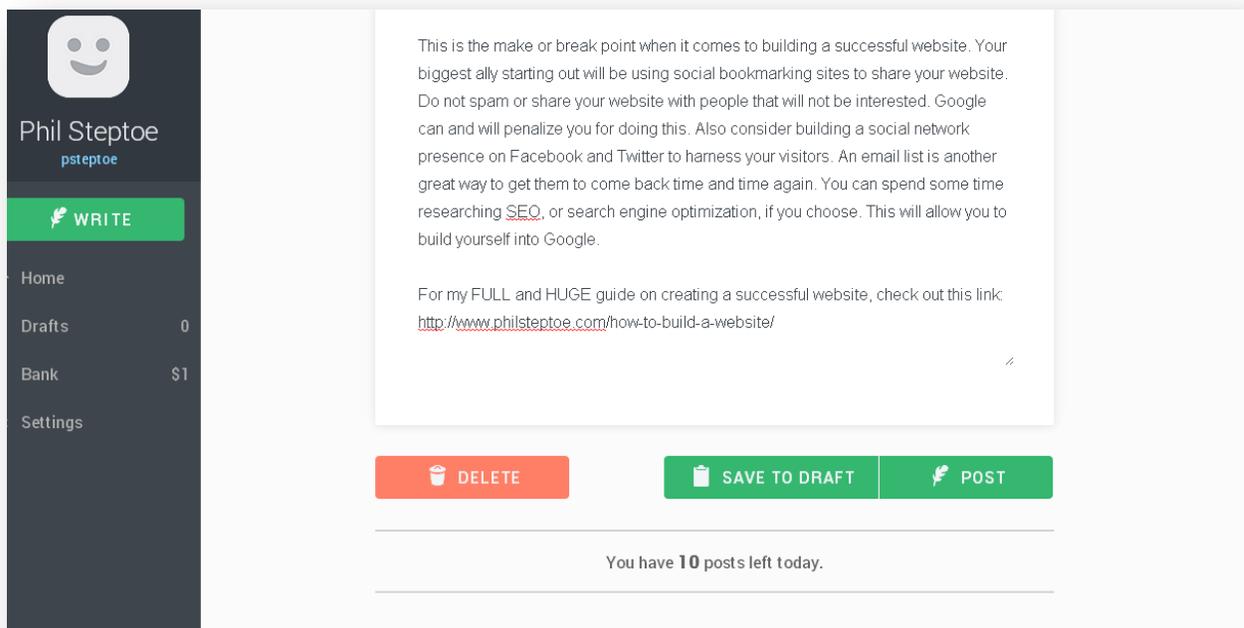

Step 3. - Once you are at the “Write” page, select an image to go with your quick article. This can be done by typing a related keyword into the blank field, as seen below. My article had to do with making a website, so my keyword was “website.”

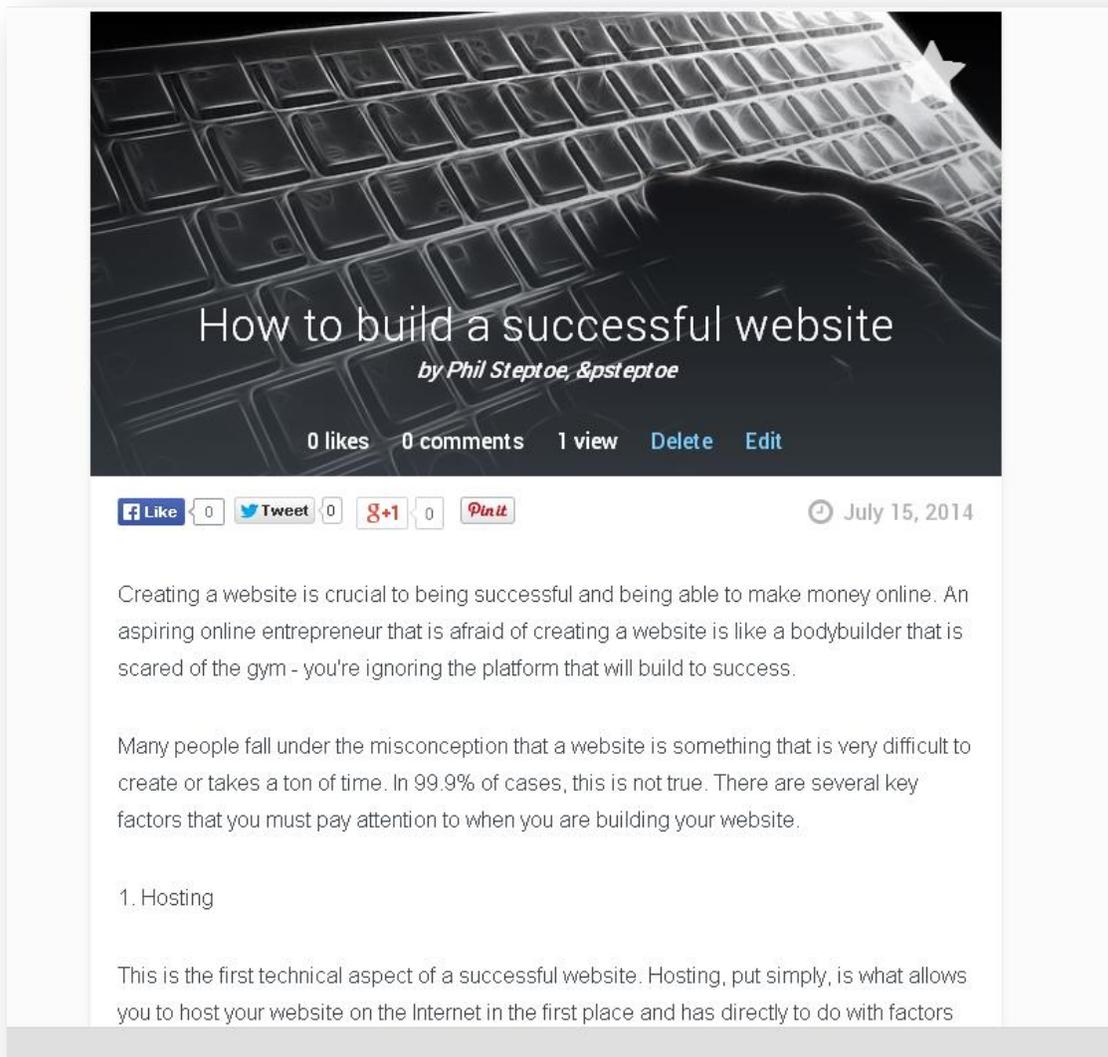

Step 4. - Write a brief article (please do not spam or post duplicate content) that will briefly cover your topic (for example “making money online, dating, etc.”). Be as general as possible. To maximize your effect, you want to structure your quick content towards your audience as generally as possible. Very basic “how-to’s” and “top five’s” work very, very well for doing this. Remember that your article and content does not need to be very long (400 words is great to start with).

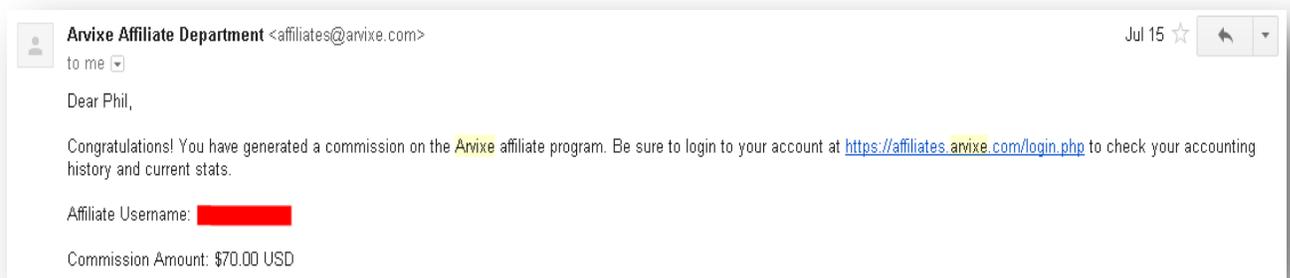

Step 5. - This is the key! Link to your content (or landing page) that offers more details or a complete solution to their problem. Remember that as an online marketer, it is YOUR JOB to provide a solution to an individual's problem. As you can see below, I linked to an article on my website that was laced with TONS of affiliate links (feel free to check out that page to see how I did it - <http://www.philstep toe.com/how-to-build-a-website/>). Do not direct link or include affiliate links on the actual site. This is against Bubblews TOS and can get your account suspended. Click the "Post" button to go live!

Step 6. - Post your article! Your article should look like this once you immediately post it. Kick back and reap the rewards. Give time for the admins to approve and categorize your posts.

Step 7. - Profit! Several hours later, an affiliate product that was on the page that I linked to in my Bubblews article converted! My article was posted late at night and only took a few hours to actually send converting traffic. Remember that Bubblews is a worldwide community and this is something that can be done at any hour of the day or night and in any niche.

2. Fast Traffic Secret #2 - Awards (FREE)

Stop and think about this one for a minute...

I'm just going to go ahead and go out on a limb and say that if you aren't doing this... you're missing out on an **absolute goldmine** for viral traffic and authority. As an online business professional, you *should* be building a brand and an image (amongst other things), whether you are building AdSense sites, making products, or a super affiliate. Most people are hesitant to post your ad banner on their site. However, what if you could get your image and link posted without that same chance of denial... even for major figures in your niche...

Did the light bulb in your head go off yet?

You guessed it. By developing your own award and seeking out those in the same niche as you, you can effectively build tons of link and start generating hundreds, thousands, and (depending on the size of the site) possibly even hundreds of thousands.

For example, in the internet marketing niche, you can present awards to products, blogs, and even videos. Who doesn't want to show off their awards? The possibilities are endless and this will work for ANY niche. There are awards for everything in this world. Start giving them.

Phil... this sounds really stupid...

That may be so. However, what if you were to attach a link to your image and make it clickable? Make sense now? People are going to naturally become curious as to what your award is and who you are. They will also assume that you are a big deal and become more likely to purchase something, follow your advice, or take action once they reach your site. This method truly makes the sky the limit. It only requires one thing - that you take action. You can use this in absolutely every single niche, including videos and audio.

How do I go about doing this?

There are a couple of ways that you can quickly make a great looking website award. I have personally used [this awesome tool](#) in the past and really recommend those who are looking for a free alternative head over and check that out. However, you may wish to search for a professional Fiverr gig if you plan to **really** do something with this method and build massive viral authority.

Fact: It's not difficult to get most product creators to accept your request to add an award to their thread!

Re: How I Banked Over 4K Working Under 4 Hours This Month Using Facebook [Now Live]

Hi Fellas,

First of all I'd like to thank Matt for his review copy. You might not have heard about him before, but you sure should see what he has to offer.

His "4k in 4 hours" guide is a no-fluff and to-the-point PDF where he shares his rather uncommon yet largely creative idea. I often judge a good product by asking myself, "if I knew this method, would I share it?". And if the answer is No, then it's a hell of a good product!

Re: How I Banked Over 4K Working Under 4 Hours This Month Using Facebook [Now Live]

I promised a review, so I'd better deliver one. This is a buyer review, I didn't get a review copy.

Firstly, and most importantly, the service you will be selling is one which business owners actually want and need. They don't want pretty websites, funny videos, glow in the dark social media pages, mobile sites when their main site is already responsive, or any other useless gimmick. What they want are leads, customers, and more profit from those customers. You can't provide the first two with this system, at least not directly, but you can certainly provide the third.

Quote Multiquote Quick Reply Thanks

Step 1: Create award (Keep it relevant to your niche. That's what you will be targeting). You can make an award [here](#) or by looking on Fiverr.

The screenshot shows the 'Laurel Leaves Award Generator' website. On the left, there is a laurel wreath logo and the text 'Laurel Leaves Award Generator'. Below the logo, it says 'Create an award in seconds!' and '(Thank you everyone that donated! Every donation helps keep this site going.)'. The main content area is divided into three steps:

- 1 words**: This step contains three input fields: 'Award Name', 'Festival Name', and 'Film Festival Name'. Below these is a text input field containing '2014'. There are 'start over' buttons for this step.
- 2 picture**: This step shows a preview of the award with the text 'Award Name', 'Festival Name', 'Film Festival Name', and '2014'. To the right of the preview are several dropdown menus: 'Laurel style' (set to 'Elegant'), 'Size' (set to 'small'), 'Words' (set to 'Black'), 'Laurels' (set to 'Black'), and 'Background' (set to 'White'). Each dropdown menu has a 'custom_color' link below it. There is a 'start over' button for this step.
- 3 download**: This step shows a preview of the award and a 'File format' dropdown menu set to 'PNG'. There is a 'start over' button for this step.

Step 2: Find experts, product creators, or bloggers in your niche. A simple Google search can easily locate some of them. In my case, I was looking for WSO products, so I browsed through the Warrior Forum WSO section until I found one that I really found was valuable and got a review copy. I then wrote a brief honest review (here is a link to mine for reference - <http://www.philsteptoe.com/perfect-video-pro-review/>). Make an HTML or (in my case) BBCode link to give the product creator, blogger, or expert. I used [this easy tool](#) to make a simple code which I then sent the product creator.

LINKED IMAGE GENERATOR

Need to put your banner image in your page? Want to put your product icon images linked to your products in a forum or a group? This will ease your job a lot! Just put the image direct link, and the url you want it to be linked to and you are done!

1) Image direct link	<input type="text" value="http://www.philsteptoe.com/wp-content/uploads/2014"/>
2) URL you want the image to be linked to	<input type="text" value="http://www.philsteptoe.com/perfect-video-pro-review/"/>
3) Alternate text (optional)	<input type="text"/>
4) Coding type	<input type="radio"/> HTML (homepages/product pages) <input checked="" type="radio"/> BBcode (forums/groups)

GENERATE

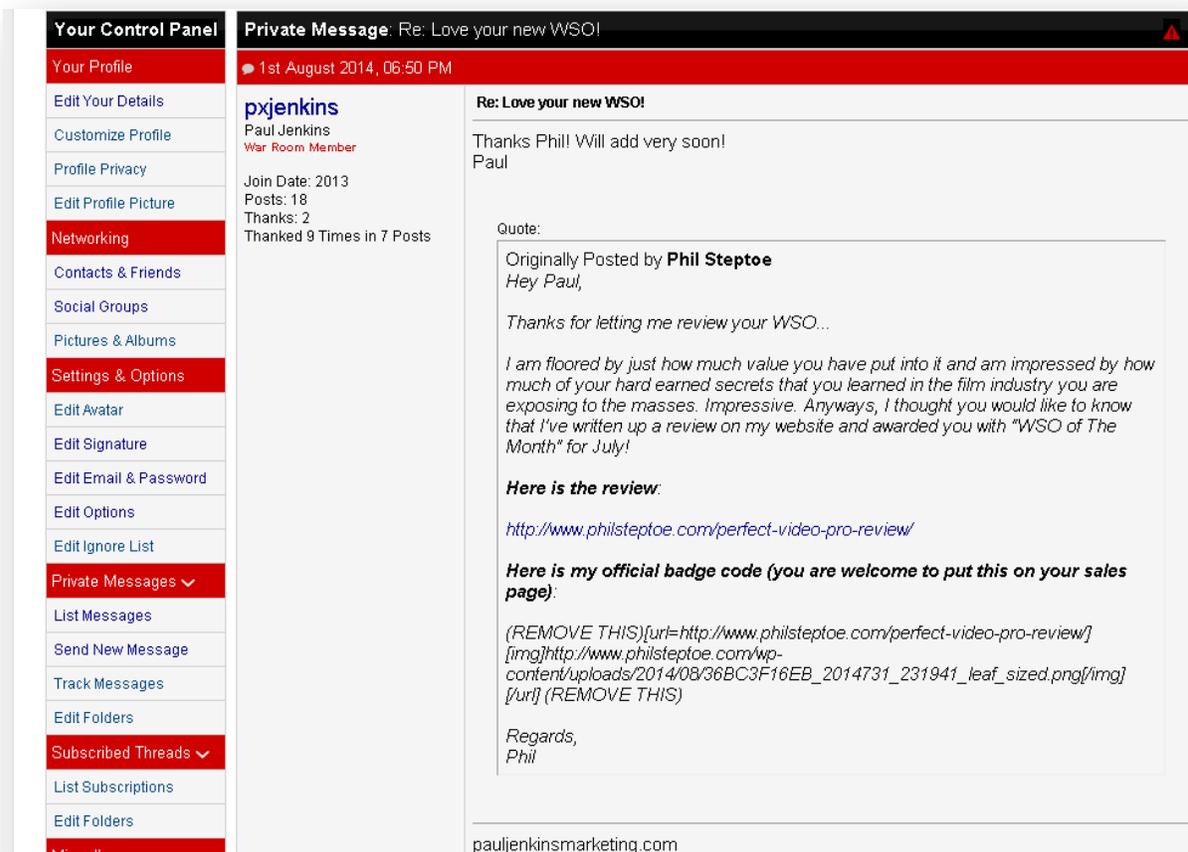

Result Code:

```

```

Preview:

Step 3: Begin messaging these experts, product creators, or bloggers and explain that they have been nominated for an award. Some of them may not respond, while others will. Remember that you want to message as many experts in your niche as possible. Sticking with one can work, but only if they actually follow through with the side of the deal. Having 4-5 awards spread across several blogs or sales page can definitely amplify the effect of this method. Within an hour or two of sending mine out, I received a response. Success!

The screenshot shows a private message interface. On the left is a 'Your Control Panel' sidebar with various options like 'Your Profile', 'Networking', and 'Private Messages'. The main area is titled 'Private Message: Re: Love your new WSO!' and shows a message from 'pxjenkins' (Paul Jenkins) dated '1st August 2014, 06:50 PM'. The message content includes a thank you, a quote from Phil Steptoe praising the sender's work, and a link to a review on philsteptoe.com. The sender's name 'Paul Jenkins' is highlighted in red.

Fast Traffic Secret #3 - iReport (FREE)

Ever wanted to be big enough to be featured on the news? Guess what. Now you can... and you don't even have to be the next big thing. However, people looking in from the outside don't need to realize that. For those of you who don't know, CNN secretly released iReporter several years ago in order to satisfy those who were interested in civilian journalism. However, most people don't realize that this is a marketing and authority traffic dream come true.

What does it mean to you?

For all of you SEO-heads out there, you may be thinking that this is just a powerful backlink from CNN. Hopefully you are following me when it comes to realizing just how important this source of traffic (and tactic in general) can be for you. Guess what this *really* means?

You get to have one of these on your site...

Want people that you *do* bring to your site to take you seriously? That should do the trick.

Anyways, back to the actual “getting traffic” part. What does iReport actually do? iReport allows you to blog about just about anything under the sun. If anyone out there has exposed this method, I can nearly guarantee that most of them have missed the real trick... Pay attention here. The key isn’t to write a random, spammy-looking, lazy post in any fashion. **The secret is to make it appear to be a REAL news article.** That’s when these articles are taken very seriously and go viral... ..and, yes, this can done in ANY niche. No excuses there.

Let me give you an example --- my niche. I have two options when titling a post for iReporter regarding making money online...

“How to Make Money Fast!!” ...

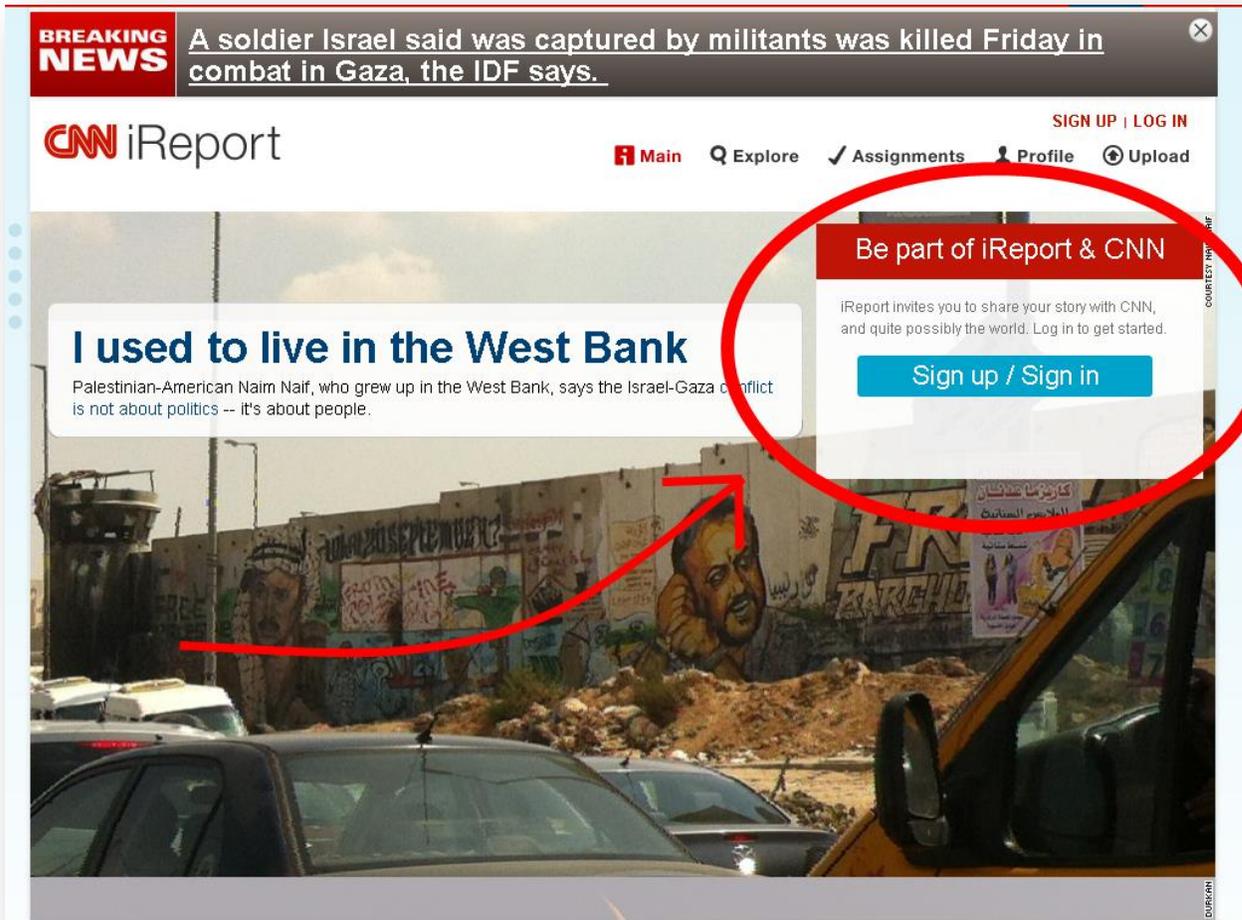

Or...

“Online employment playing major role in U.S. economy stabilization.”

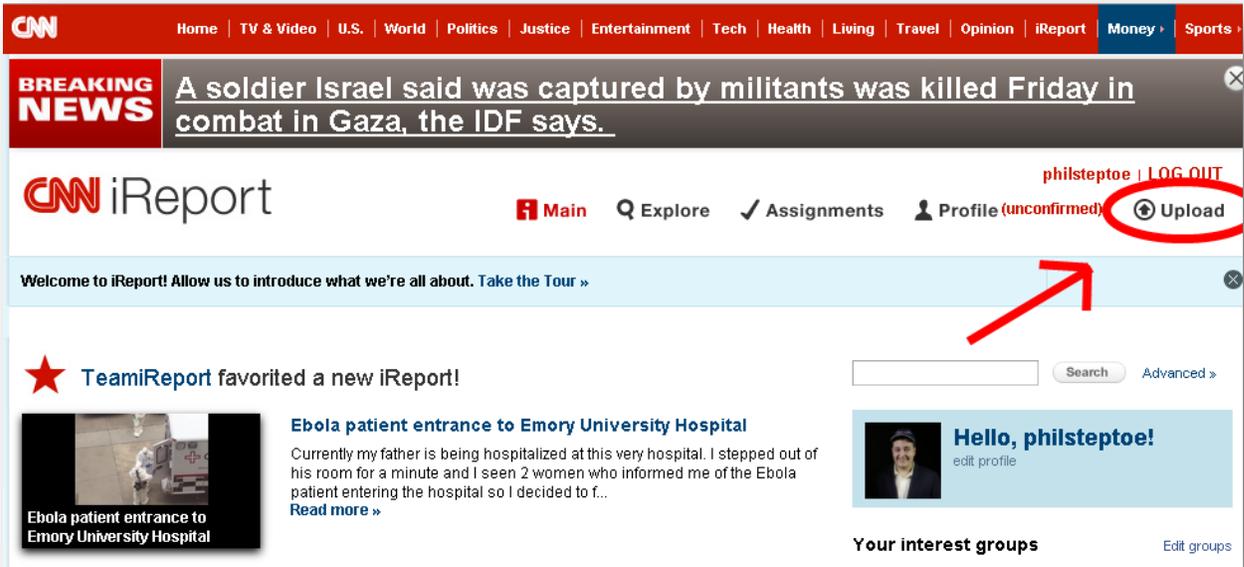

See the difference? It's not about keyword-stuffing, "BUY NOW!!!" links, or direct linking affiliate tactics. If you can see past that stuff for a minute and realize that it's all about authenticity, you are putting yourself in a very powerful spot for generating *serious* traffic. As soon as my article was posted, I began to receive traffic to it... some of which visited my blog (I included a link at the end of the article).

Step 1: Go to iReport and sign up for a new account -

<http://ireport.cnn.com/>

Step 2: Login to your dashboard and click the “Upload” button.

Step 3: Go to the “Choose Assignment” drop menu at the top and choose either an assignment that is relevant to your niche or choose “Breaking news.” From there, **give your headline a very authentic news-like name**. This is very, very important. Spend the 5 seconds that it takes to do this. Next, write a 300+ word article related to your niche. Be sure to make it sound professional, authentic, and include proper spelling and grammar. In the “Tags” box, be sure to include several keywords that are directly related to your niche. This is very important if you want it to be found. At the end of your article, include an “About the author” link. Make sure that you include “http://www.” in your link. Otherwise it will not work properly.

The screenshot shows the iReport form interface. At the top, there is a navigation bar with links for Home, TV & Video, U.S., World, Politics, Justice, Entertainment, Tech, Health, Living, Travel, Opinion, iReport, Money, and Sports. Below this is the iReport logo and a 'Choose Assignment' dropdown menu set to 'Breaking news'. The main heading is 'Your Story'. The form is divided into two main sections: '1 Write your report' and '2 Select your media'. In the 'Write your report' section, there is a 'Headline' field with the text 'Online employment playing major role in U.S. job market stabilization' and a 'Description' field with a long text area containing a paragraph about online employment trends. Below the description is a 'Tags' field with the text 'breaking_news online business social media finance'. There is also a checkbox for 'Mark this iReport as Discretion Advised'. In the 'Select your media' section, there is a 'browse' button and a notification that says 'You added: Sales-Chart.jpg'.

Step 3 (cont.): For step 2, be sure to include a relevant, high-quality, and professional image to accompany your article. Be sure to fill out the location part for step 3 (not shown in picture). You don't have to use your real location if you don't feel comfortable with that. Agree to the terms of service and click the "Upload" button!

The 'Select your media' section includes a 'browse' button and a notification that a file named 'Sales-Chart.jpg' has been added. The interface also shows character counts and a 'WHAT'S THIS?' link for the discretion checkbox.

Step 4: Success! As you can see, after approximately 30 minutes, my article was approved, began to receive traffic, and was being shared on social networks! Submit your article to social bookmarking sites now for even more views! [IMAutomator](#) is a great software that has a free trial for doing this on autopilot!

The screenshot shows an iReport article interface. At the top, there are social sharing buttons for Google+, Tweet, Share, and Favorite. Below these are statistics: 5 VIEWS, 0 COMMENTS, and 2 SHARES. The article title is "Online employment playing major role in U.S. economy stabilization" by philsteptoe, posted 49 minutes ago. A "Share on Facebook" button is visible. The article text discusses the rise of online employment, citing Envato Studios' report from Q1 2012 and Indeed's data showing 8,000 open positions for social media management. A sidebar on the left titled "More iReports you should see" lists related articles: "Ebola patient entrance to Emory University...", "Six Flags Over Georgia - more images", "New York for Gaza", and "Gas Explosion in Kaohsiung, Taiwan".

Over one year ago, Envato Studios reported that in Q1 of 2012, online employment had risen by 66%. This huge increase has been directly linked to fields like search engine optimization, social media marketing and management, programming, mobile apps, and lead generation.

Doing a simple search on Indeed shows that over 8,000 positions are open for social media management at this very second. Many of these job listing are paying high-end salaries, some even reaching as far as \$100,000+ per year. Even on a smaller scale, online employment has taken a huge rise. Denver Business Journal reported on July 30, 2014 that Colorado has recently

Fast Traffic Secret #4: IBOtoolbox (FREE)

For those of you who aren't familiar with IBOtoolbox, I recommend that you spend some time investigating this traffic and marketing goldmine. IBOtoolbox is a social network for business owners that can be used to not only generate attention to your webpages, but also merge your marketing efforts with other interested business owners and entrepreneurs. As an online business owner, it should be your goal to not only be interested in traffic, but also long-term business opportunities and relationships. **This site works very well for both.**

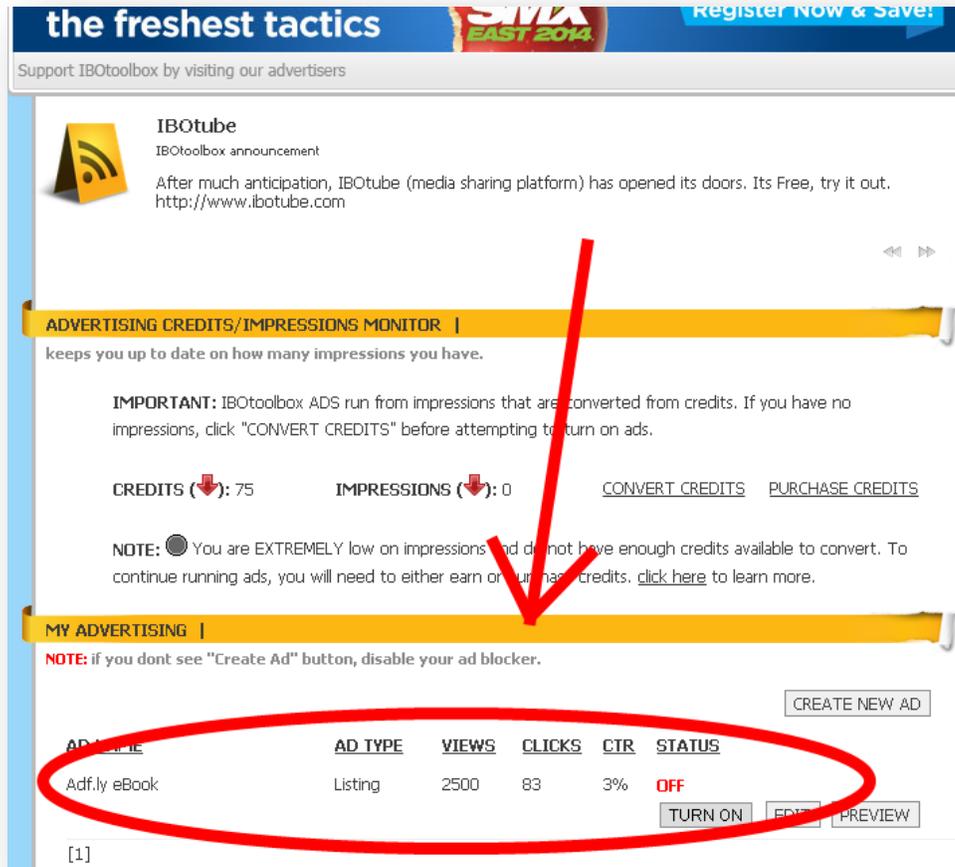

So how does it work? The basic idea of IBOtoolbox is that it allows you to blog to other business owners about common problems in the business world and solutions for them. These "press releases," as they are called, are an excellent way of obtaining traffic and conversions, but they aren't the only way to do this. By signing up and filling out your profile, you will receive 500 credits for use in advertising. However, you

can generate further credits by writing “press releases” on the site. IBOtoolbox also features an advertising system, which allows users to post an ad that will show on the main page of the dashboard. As you will see below, this is the approach that I used, as I didn’t want to spend a whole lot of time writing “press releases.” You can do this for even better results, but if you are looking for a quick traffic fix, the advertising system works flawlessly. Did I forget to mention that you get free advertising credits each week? Awesome, right?

Secret Bonus Tip: Don’t feel like doing tons and tons of posts? Just create tons of separate accounts and fill out your profile for nonstop free credits!

See for yourself...

While I slept one night, I got over 83 unique visitors to my landing page, which netted me several sign-ups to my list... and I only had a 3% CTR on my IBOtoolbox ad - which sucks (I'm terrible with most ads lol, so this is a great worst-case scenario example)! **Think of the possibilities with this!**

The screenshot shows the IBOtoolbox dashboard. At the top, there's a banner for "the freshest tactics" and "Register Now & Save!". Below that, a section for "IBOtube" features a yellow RSS icon and text: "IBOtoolbox announcement. After much anticipation, IBOtube (media sharing platform) has opened its doors. Its Free, try it out. http://www.ibotube.com".

The "ADVERTISING CREDITS/IMPRESSIONS MONITOR" section includes a yellow header and text: "keeps you up to date on how many impressions you have." It contains an "IMPORTANT" note: "IBOtoolbox ADS run from impressions that are converted from credits. If you have no impressions, click 'CONVERT CREDITS' before attempting to turn on ads." Below this, it shows "CREDITS (↓): 75" and "IMPRESSIONS (↓): 0". There are buttons for "CONVERT CREDITS" and "PURCHASE CREDITS". A "NOTE" states: "You are EXTREMELY low on impressions and do not have enough credits available to convert. To continue running ads, you will need to either earn or purchase credits. click here to learn more." A red arrow points from the "IMPRESSIONS" section down to the table below.

The "MY ADVERTISING" section has a yellow header and a "NOTE: if you dont see 'Create Ad' button, disable your ad blocker." It includes a "CREATE NEW AD" button and a table of active ads. The table has columns: AD NAME, AD TYPE, VIEWS, CLICKS, CTR, and STATUS. One ad is listed: "Adf.ly eBook" with a "Listing" type, 2500 views, 83 clicks, 3% CTR, and a status of "OFF". Below the table are buttons for "TURN ON", "EDIT", and "PREVIEW". A red oval highlights the table row, and a red arrow points from the "IMPRESSIONS" section down to the table.

AD NAME	AD TYPE	VIEWS	CLICKS	CTR	STATUS
Adf.ly eBook	Listing	2500	83	3%	OFF

Step 1: Go to <http://www.ibotoolbox.com> and create a new account.

The screenshot shows the IBOtoolbox website interface. At the top, the header includes the IBOtoolbox logo, a 'MEMBER OF THE DAY' section for Emmanuel Mba, and a 'VISITORS TODAY' counter showing 206327. A banner for a '2014 CHRYSLER 300' is displayed. The main content area features an 'ADVERTISING' section with a training tip and a 'WELCOME ALL INDEPENDENT BUSINESS OWNERS..' message. A large graphic says 'THINK BIG DREAM BIG'. Below this, there is a section titled 'WHY IS IBOTOOLBOX GETTING SO POPULAR?' with a word cloud and a list of reasons. On the right side, there is a 'SITE NAVIGATION' menu, 'ASSOCIATED SYSTEMS' links, a 'SITE LOGIN' form, and a 'CREATE NEW ACCOUNT' form. The 'CREATE NEW ACCOUNT' form is circled in red, and a red arrow points to it from the text 'Sign up here.'. Another red arrow points to the 'VISITORS TODAY' counter with the text 'Look at that traffic!'.

Fast Traffic Secret #5: eBay Classifieds (FREE)

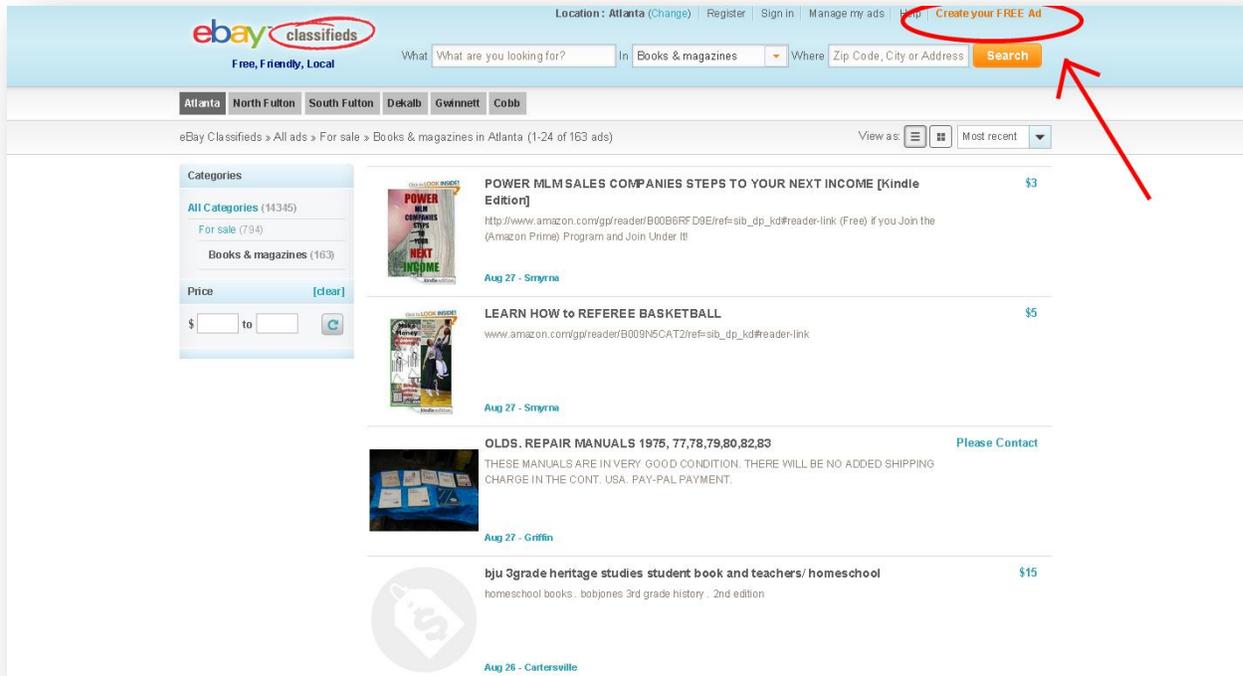

“Seriously, Phil?... eBay?...”

I know what you’re thinking. But believe me... eBay is a lead magnet and traffic monster! eBay is one of the most visited websites on the Internet and it gets hundreds of millions of searches per day. What does this mean for you? You have access to one of the most powerful lead magnets **EVER**. If you thought Amazon Kindle was the only serious lead generator, think again.

So, how does this work for you?

The way this works is simple - open an eBay account, upload quality PLR or your own digital product (“how to” guides work **very** well) that includes links to your website as well as affiliate links (this can be great for profitability), set the price at free, and let the traffic and commissions flow.

Step 1: Visit <http://ebayclassifieds.com> and select a popular city (listed at the bottom). For this example, we will use Atlanta. Choose the “Create your FREE Ad” option. Select the “Books and Magazines” option.

Step 2: Fill out your listing. Choose the “Free” option for price. Be sure to include a link to your squeeze page, website, or digital product inside of the classified description. Make sure that you also enter the same zip code of the city that you desire to post in. As I state above, I recommend listing in a popular city for more traffic. Click the “Preview Your Ad” button at the bottom when you are finished.

Fast Traffic Secret #6: Email Traffic List (FREE)

Email Traffic List is an amazing website, especially for those looking to build a list or promote affiliate offers. This website allows you to send mail to over 1,000 people **just for joining** - that's a LOT of people. If you are into solo ads, this is an awesome free alternative that can work just as well. This website works somewhat like a traffic exchange, except with email traffic - making it much more effective for getting targeted visitors quickly. Contrary to popular belief, you do not need to send any emails in order to be able use their system.

So, how does it work?

Email Traffic List works by allowing you to earn “credits” by tweeting, viewing ads and emails (which is how people are driven to your website), and more. You can then use these credits to mail their huge email list that consists of **hundreds of thousands**. It's not very difficult *at all* to drive traffic with this method, even if you aren't good at writing emails.

Step 1: Sign up at <http://emailtrafficlist.com/>.

The main content area displays a message: 'You are using the same email address for your contact email and list email. Click here to change them.' Below this is a 'My Profile' section with a profile picture of a power button icon and the name 'Phil'. To the right is a 'Member Info' section with the following details: Username: philpbsteptoe; Account Type: Free (Upgrade); Mailing Credits: 0 (Buy More); Email Members every 5 Days; Next Mailing: Send Now (circled in red with an arrow); Member Level: 0; XP Points to next level: 1000; Emails Clicked: 0; Referrals: 0; Bonus Email Members: 0. The "Subject:" field contains "Amazing Social Media Product Gets Anyone to The Front Page of Twitter". A blue link "Click here to send your message in html format" is present. The "Message:" field contains the text: "Hey there, Just wanted to let you know about this amazing product that I found, which allows you to rank any social message to the front page of any social network! Below the message is the "Url:" field, which contains "http://www.warriorforum.com/warrior-special-offers/958266-revealed-warrior-". This field is circled in red. A red arrow points from the right side of the page towards this field. Below the URL field, there is a note: "As a Free member, you can email up to 1000 extra members using your credits. It costs 1 credit for each additional member that you want to email." and a status line: "You Have 0 Credits you can use to email Extra Members." At the bottom, there is a field for "Extra members to email (200 minimum):" with the value "0".

Fast Traffic Secret #7: Super Facebook Ads (CHEAP)

“Oh, great... Another stupid Facebook ads strategy...”

Not quite. I'm about to reveal one of the most powerful sources of paid targeted traffic sources out there. As a social media nut, I went crazy when I discovered this secret. Most of you will not have heard of this method or have utilized it properly. For as low as \$20-40 you can get TONS of targeted buyer traffic to your website, product, or service - **time and time again.**

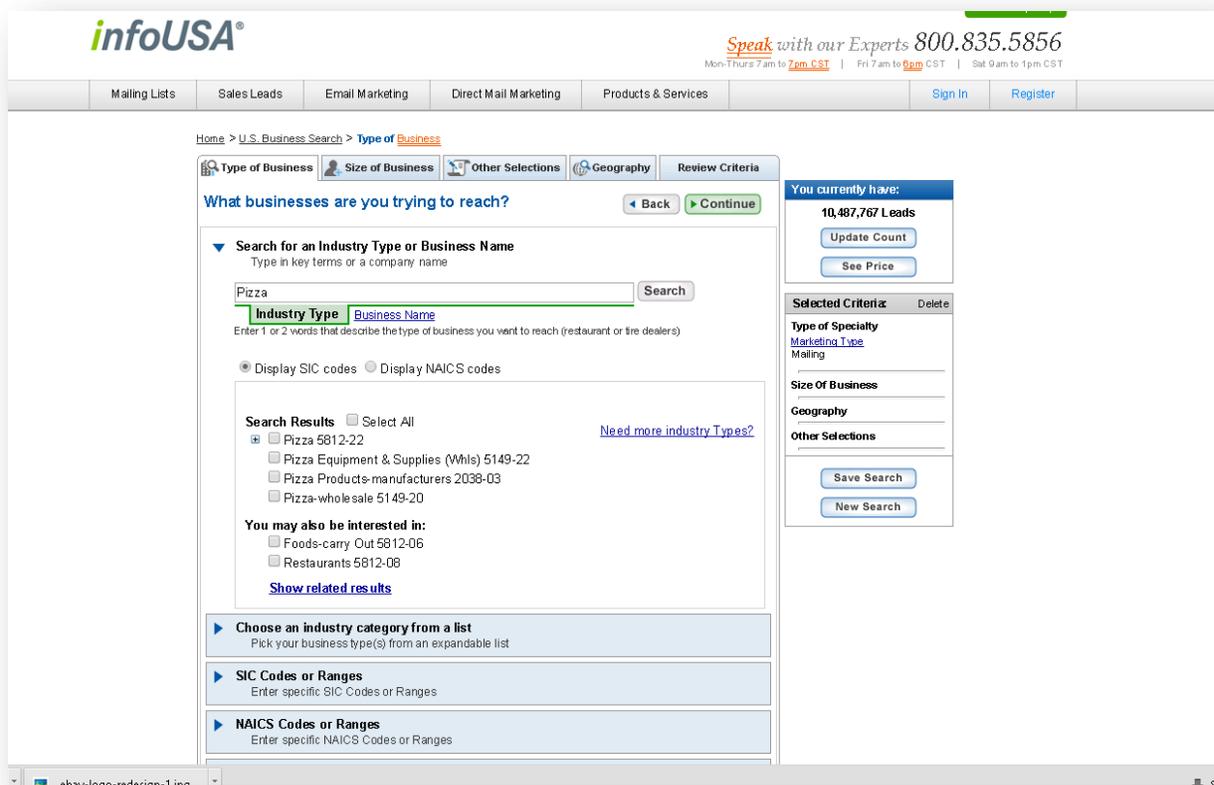

But don't I need a list?...

Normally, yes (if you have a list, you are welcome to use it with this method). However, there is a way around this (and arguably a little twist that can be used for traffic in and of itself) that works very well. Ever heard of buying a mailing list? I'm sure you have. Normally, I never recommend it. However, as long as you don't mail this list, you can still utilize it very safely using Facebook ads. We are going to use something

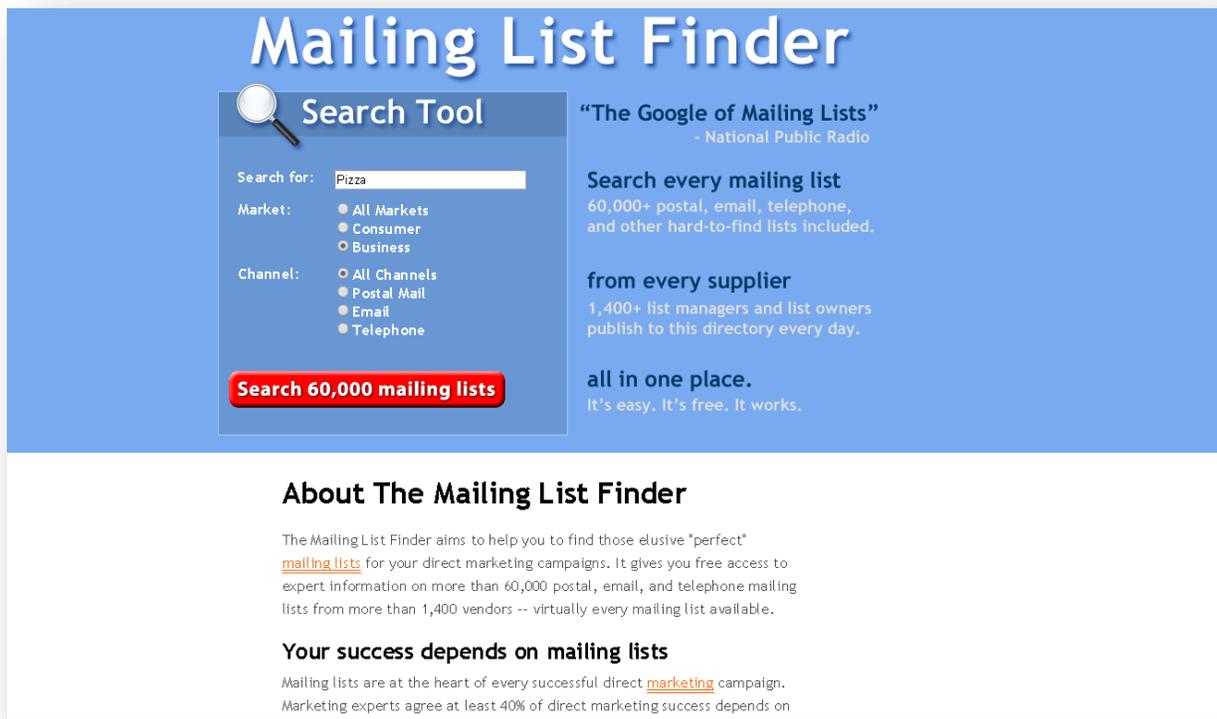

called “Facebook Custom Audiences.” This feature allows you to target your ads to specific email addresses or phone numbers. This can be used to get hyper-targeted leads.

Step 1: Visit <http://leads.infousa.com/Business/TypeOfBusiness.aspx> to purchase a targeted list. As you can see from the screenshot below, I used pizza restaurants as an example (offering marketing services to pizza restaurants). However, be sure to target your list to your specific niche. For internet and offline marketing, try targeting “Small Businesses,” “Marketing Consultants,” and “Marketing Programs and Services.” You will want a list of at least 1,000 businesses to maximize this method.

Step 1 (opt.): An alternative to InfoUSA is <http://lists.nextmark.com/>. This site works very well for finding very inexpensive targeted mailing lists.

The screenshot shows the 'Mailing List Finder' website. The top section has a blue background with the title 'Mailing List Finder' in large white letters. Below the title is a 'Search Tool' section with a magnifying glass icon. It includes a search input field with 'Pizza' entered, and radio button options for 'Market' (All Markets, Consumer, Business) and 'Channel' (All Channels, Postal Mail, Email, Telephone). A red button says 'Search 60,000 mailing lists'. To the right, text reads: 'The Google of Mailing Lists' - National Public Radio. 'Search every mailing list' - 60,000+ postal, email, telephone, and other hard-to-find lists included. 'from every supplier' - 1,400+ list managers and list owners publish to this directory every day. 'all in one place.' - It's easy. It's free. It works.

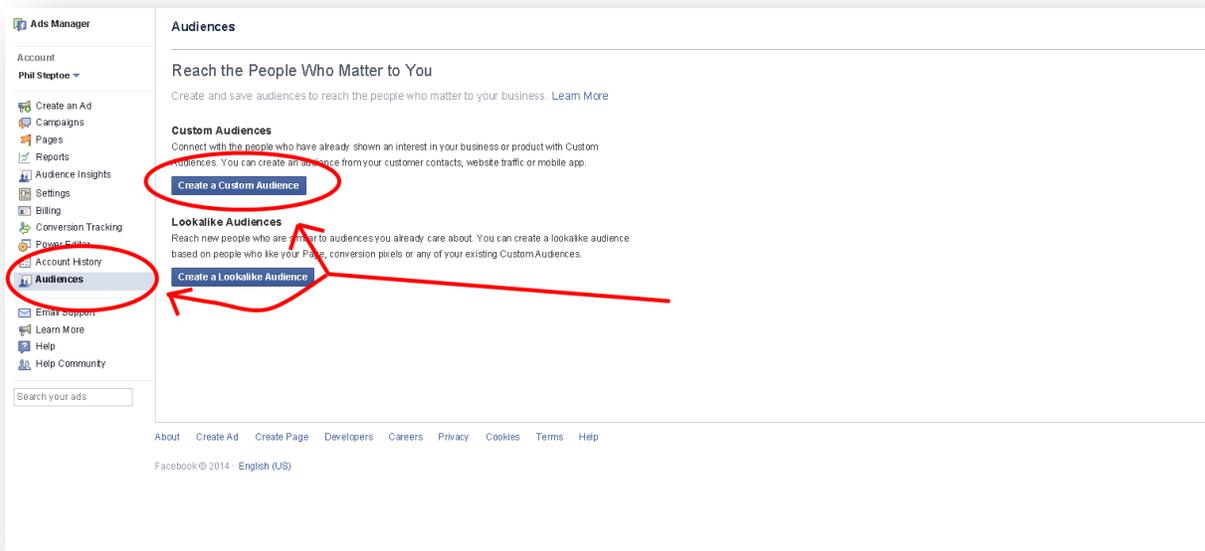

About The Mailing List Finder

The Mailing List Finder aims to help you to find those elusive "perfect" [mailing lists](#) for your direct marketing campaigns. It gives you free access to expert information on more than 60,000 postal, email, and telephone mailing lists from more than 1,400 vendors -- virtually every mailing list available.

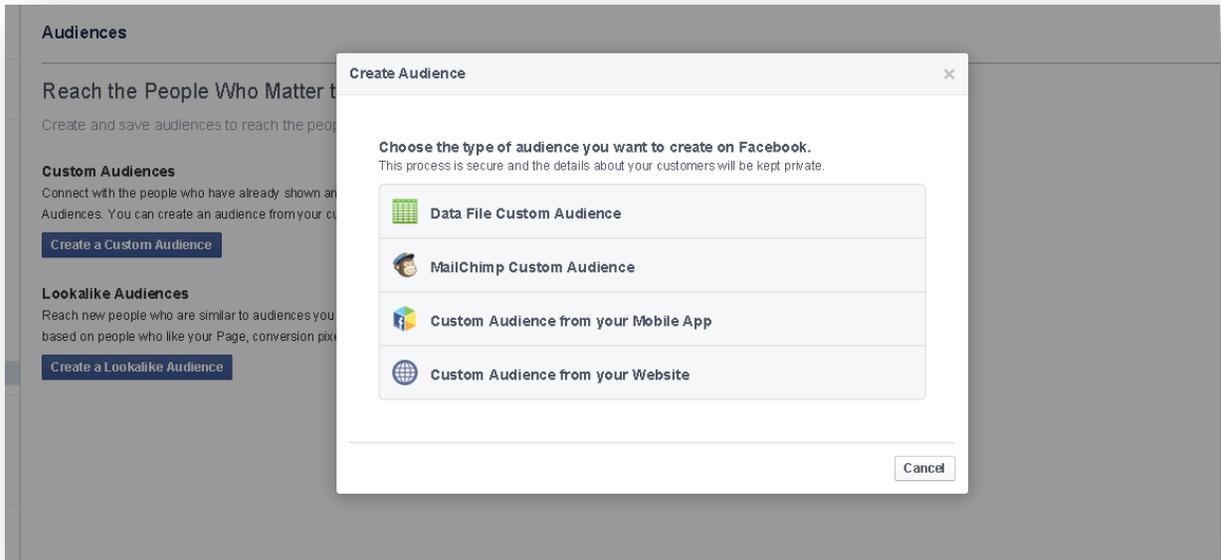

Your success depends on mailing lists

Mailing lists are at the heart of every successful direct [marketing](#) campaign. Marketing experts agree at least 40% of direct marketing success depends on

Step 2: Next, visit <https://www.facebook.com/ads/manage> and click “Audiences” on the left-hand side (as shown below). Then, click “Create a Custom Audience.”

Step 3: A pop-up window will appear. Be sure to choose the “Data File Custom Audience” option to use with your purchased mailing list.

Step 4: Fill out the form with the appropriate information. Be sure to choose the correct Data Type, otherwise Facebook will not load your information properly. Then, upload your file and click “Create Audience!” It may take up to 30 minutes for your list to upload. You should receive an email confirmation when it uploads. Using this Custom Audience, it is possible to hyper-focus your Facebook ads and get the most bang for your buck possible!

Step 5 (BONUS SECRET): Consider selling this service to small businesses and using it to promote posts on their Facebook page. This can be **extremely** effective for generating profit for businesses that have Facebook pages with a minimum of 100 likes and a list of email addresses or phone numbers. You can use the method above to send traffic (small business owners) to a squeeze page. You can easily make \$10,000 per month with this method if you take action and work at it. There are **entire WSOs** written on this secret alone. Boom, this eBook officially just paid for itself. You're welcome. 😊

Fast Traffic Secret #8: Airpush (CHEAP)

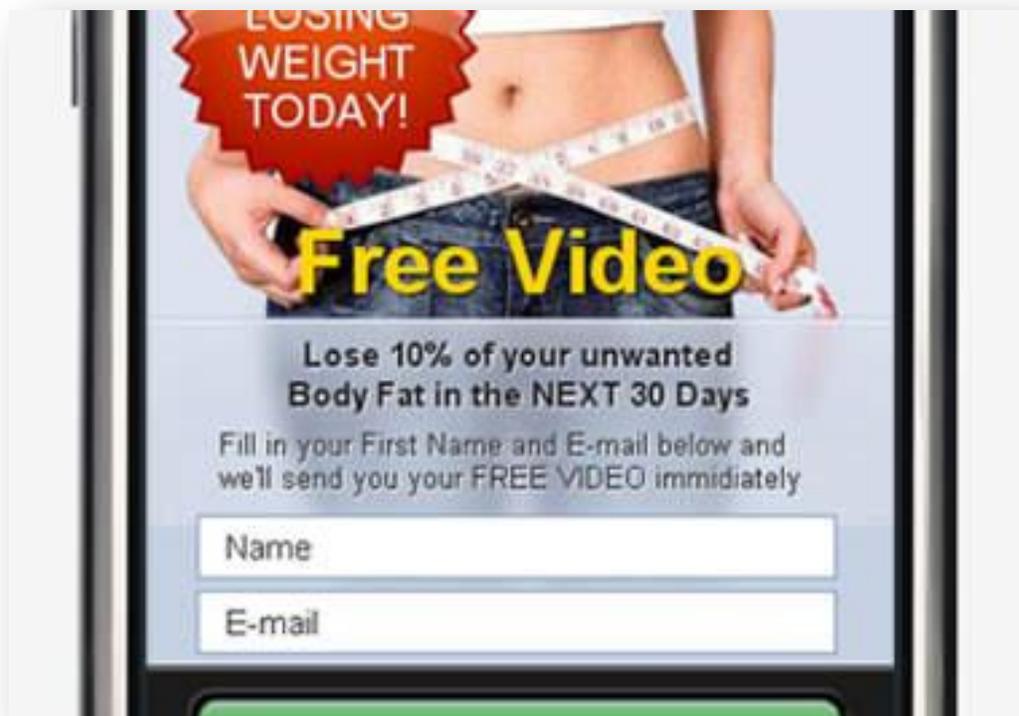

Did you know a recent study just revealed that 55% of all traffic is mobile traffic nowadays? [Don't believe me?](#)

Well, just think about it. What's the first thing you do in the morning when you wake up? Let me answer that for you - check your cell phone. How about when you are eating? Checking your cell phone. Or heading to work? Checking your cell phone. You get the picture. We have a very intimate relationship with our phones these days, and it's only going to become stronger.

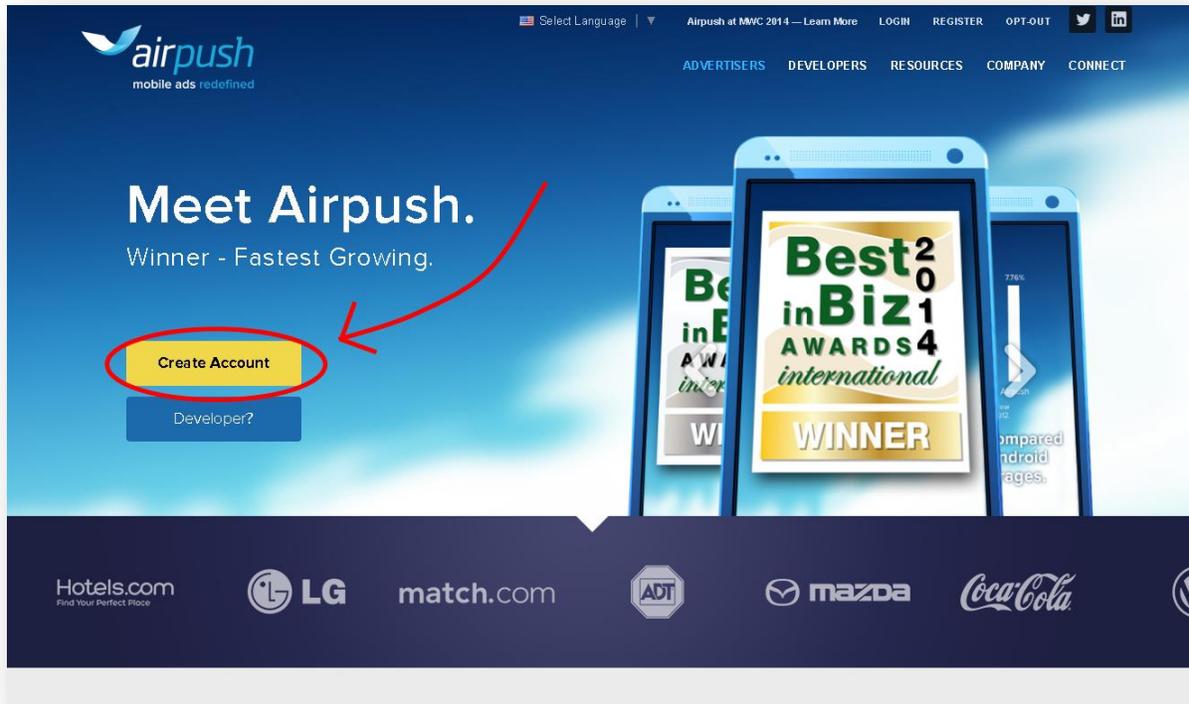

As a marketer, it is your job to stay up on the current trends of traffic and understand what is going to be most effective for your efforts. **For those using BuzzCity, I highly recommend that you try using another network. Unless you are using Asian traffic, BuzzCity will simply not work well for you in the end.** In my experience using Airpush, I received an average CPC between \$0.05 and \$0.10 (\$0.01

clicks are ridiculously rare, but they *can* happen) - in other words, **dirt cheap**. It is also *extremely* targeted traffic and features geo-targeting, which is a must-have for CPA. You can also target by device, specifically between mobile and tablet. You can use this to monetize very well with app and game downloads. I have had solid results with using this network with direct linking CPA offers, but it is amazing for traffic alone.

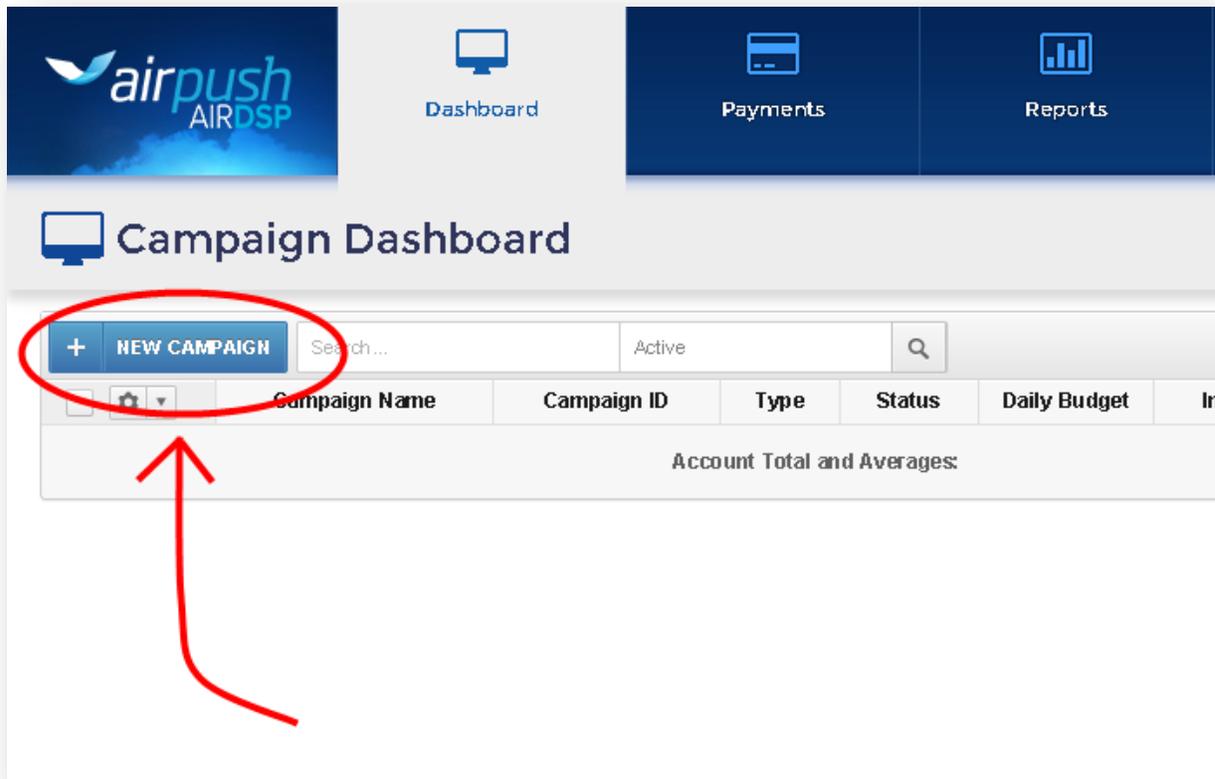

To maximize conversions with mobile traffic, you will need a highly-converting mobile squeeze page, like the one below. If you purchased the upsell, “Conversion Booster Pro” includes these templates as well as proper advanced training on how to make the most of getting conversions with your traffic.

Step 1: Visit <http://www.airpush.com/> and click “Create Account.”

Step 2: Once you create an account you will be taken to the Campaign Dashboard, where you need to press “New Campaign.”

Step 3: Fill out the appropriate fields. Be sure to set your daily budget appropriately. I recommend **at least** \$10-30 per day for a good effect. Also, be sure to pick the appropriate category. If you are promoting Biz Opp offers, you want to choose “Business” as your category. If you are promoting dog trainer offers, you want to choose “Pets.” You get the idea.

The screenshot displays a web interface for creating an advertising campaign, divided into three steps: Step 1 - Campaign Info, Step 2 - Targeting, and Step 3 - Creatives. Step 1 is currently active.

Step 4: Enter the URL that you will be using for your campaign. You can then select targeting options. As I mentioned above, this works well for promoting country-specific CPA offers and you can even target the time of day and device. If you are promoting games and apps, you can also check the option to exclude those who have already converted in your ads. Set your minimum bid (the minimum bid at this was \$0.07).

Step 5: Create a nice creative text ad with a great call to action and nice image (which you can select in the ad options at the bottom). Make sure that you include the proper URL to your website, affiliate link, squeeze page, or wherever else you want visitors to go once they click on your ad). Click “Create Ad & Finish” to proceed. I recommend that you create as many ads as possible and split test different destinations, headlines, pictures, and more. You can easily track your efforts by using a sub-ID in your CPA network as well as using a URL shortener. For those who are more tech-savvy, use tracking software like Prosper202! Test, test, test! Anyone who has made their millions with mobile will tell you that same thing! Enjoy one of the most powerful underground mobile traffic hotspots out there!

The screenshot shows a web interface for creating a mobile ad. At the top, there's a header with "Select Creative Type" and two options: "In-App Text Ads" (checked) and "In-App Banner Ads" (unchecked). Below the header is a preview of a smartphone displaying an ad. The ad text reads: "\$4,000 Per Month W/ FBook" and "Make \$4,000 Per Month With Just Facebook". Fast Traffic Secret #9 - YouTube Call-To-Action Overlays (CHEAP)

What makes proper YouTube marketing so great?

YouTube marketing has been a favorite for quite some time by marketers due to the high conversion rates that it carries compared to other advertising sources. For a mere \$10, I got several hundred targeted visitors to my website, roughly 10% of which opted-in to my list.

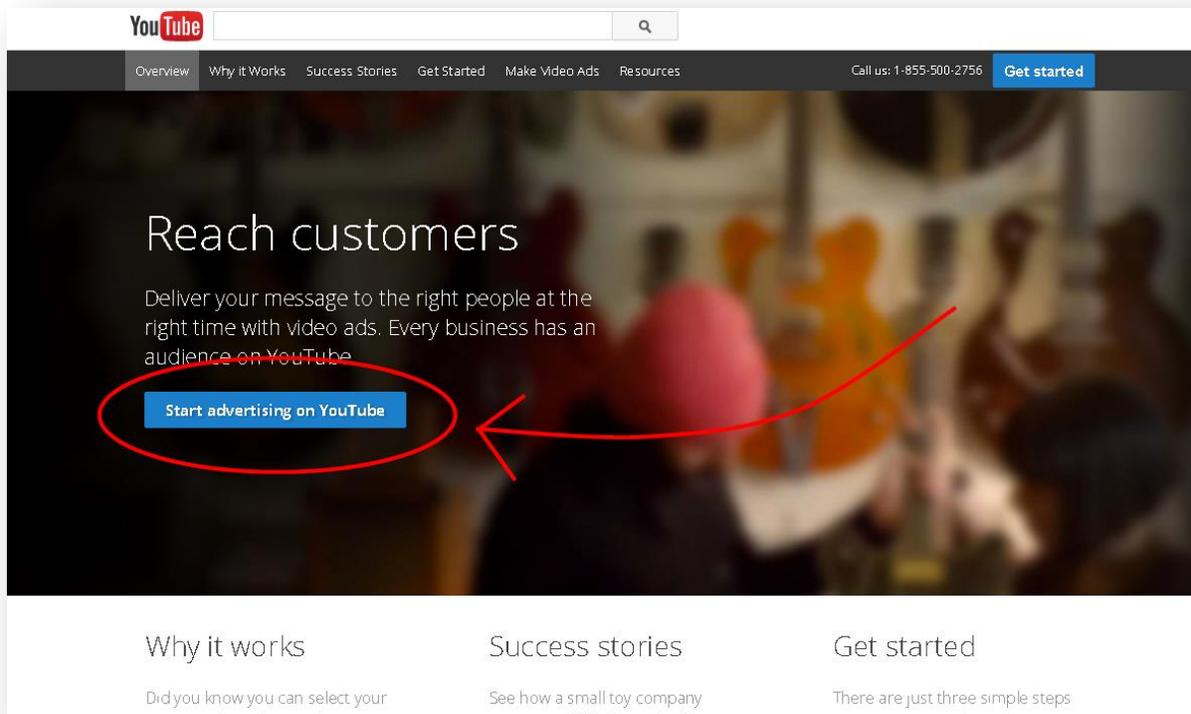

Tons of people are using YouTube for marketing...

But very few know about this tiny little YouTube secret that can drive tons of daily visitors, subscribers, and sales **without any extra effort** on your part at all. Using this little trick, you can create an inexpensive, yet powerful targeted traffic source. From my experience, I have gotten CPCs as low as \$0.01 with this method, which is **extremely** cheap for video advertising.

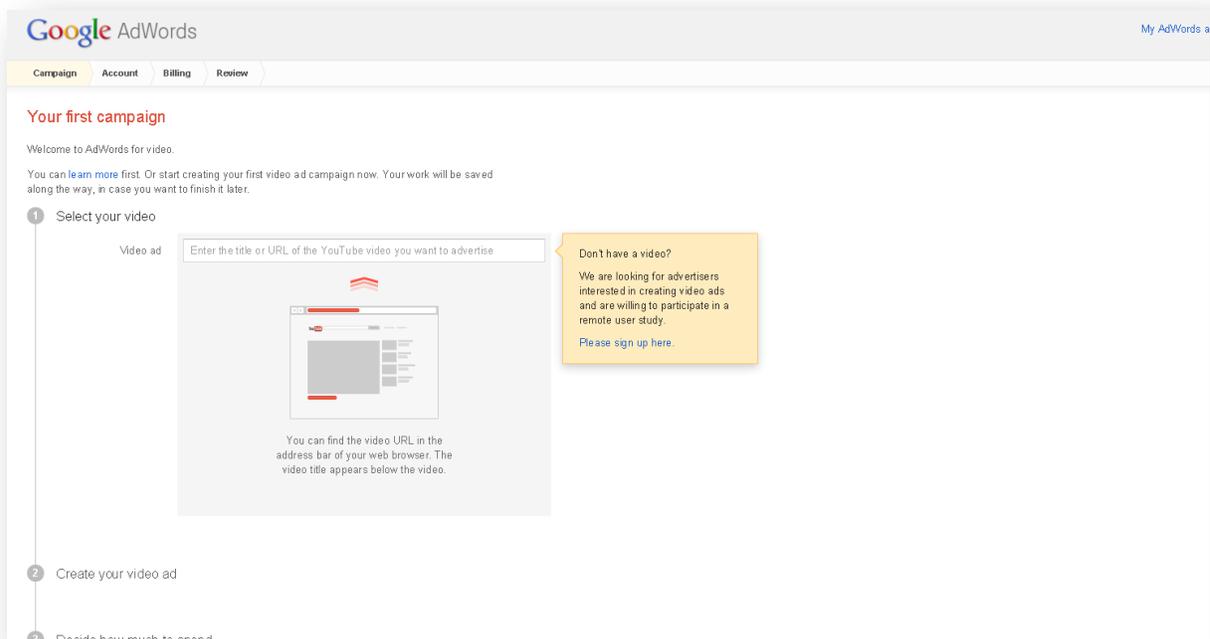

This is an example of a quality YouTube call-to-action. Remember to demand immediate action from your viewers and to keep your ad relevant. Use phrases like “right now” to help boost your CTR. Try using a free gift to grab their attention.

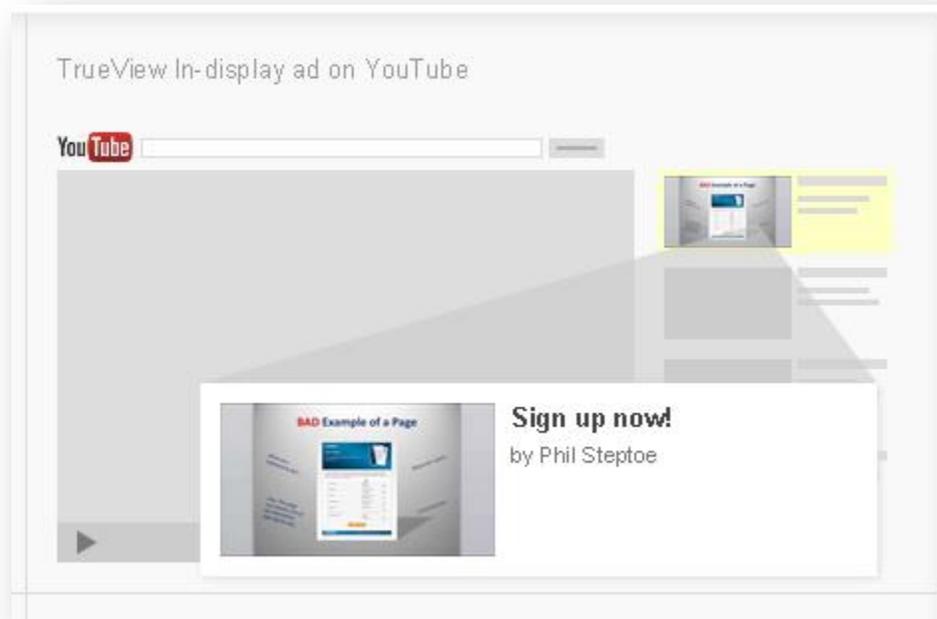

Step 1: If you don't have a YouTube account, you will want to create one here: <https://www.youtube.com/yt/advertise/>. To maximize this method, you are going to want to create your own video. Without your own video, it will be more difficult to receive targeted visitors.

Step 2: Include the link to your YouTube video in which you want to advertise. Then, create a headline with a **very** strong call-to-action. As a bonus for this eBook, I have attached a list of 50 extremely strong CTAs. Be sure to choose the proper target audience. You can select from “Locations”, “People’s web activity”, and “Attributes” (age, gender, and interest).

Step 3: Select TrueView In-display ad. Be sure to review your ad to make sure that it looks the way you want. Launch your campaign!

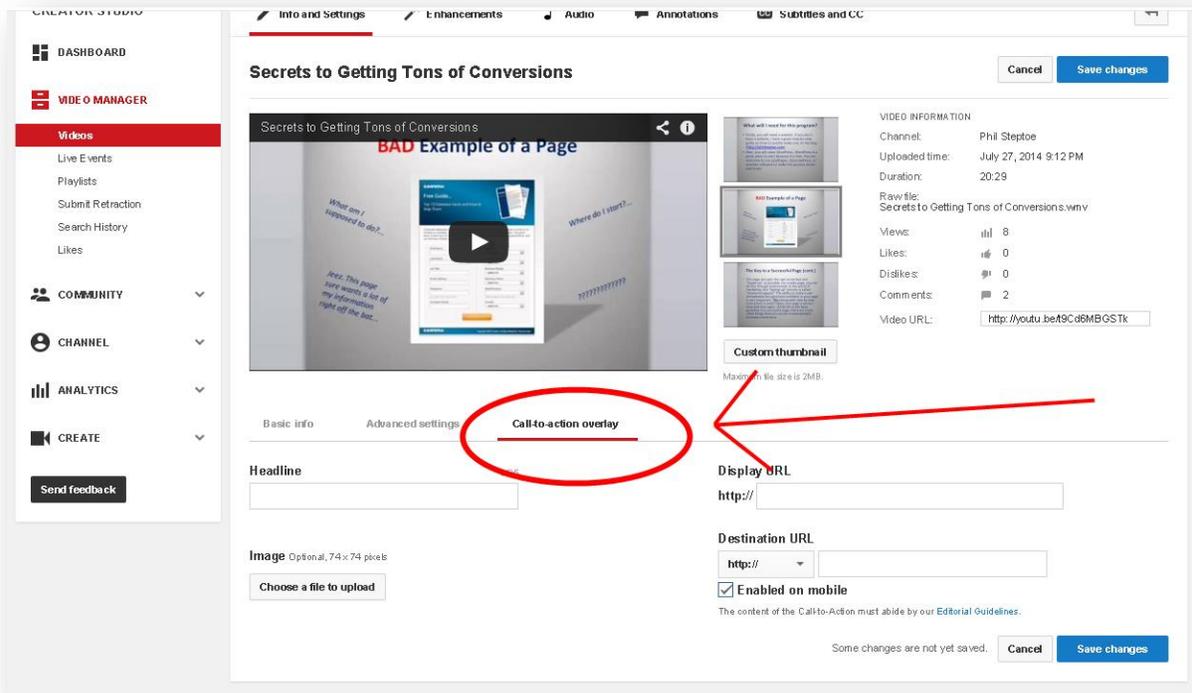

Step 4: Wait for your ad to be accepted by the AdWords team.

Step 5: Go to https://www.youtube.com/my_videos and select click “Edit” next to the video where you will be advertising.

Step 6: Click “Call-to-action Overlay.” Fill out the “Headline” box with a strong call-to-action like you did when originally making your ad. Upload a relevant image to match your overlay. Lastly, fill out your display and destination URLs. Click “Save changes!” Enjoy your new YouTube traffic!

Fast Traffic Secret #10 - Kingged (FREE)

For those of you who don't know, Kingged is the Reddit of internet marketing. It is a social bookmarking tool dedicated strictly to marketing and making money online. It serves as an *excellent* tool for building a list, making sales, and getting clients. I have made quite a few WSO sales from taking 5 minutes to post to Kingged.

So... how does it work?

Kingged works by allowing people to post content and then have their posts ranked by other members. Like I said above, this works very much like Reddit. This means that you have an entire community of traffic at your disposal. Whether you blog, want to build a list, or are selling an IM/MMO product, Kingged is **one of the most powerful** untapped traffic sources out there for internet marketers.

This is the homepage of Kingged. As you can see, it is a very active community with large user base. In other words - marketing goldmine.

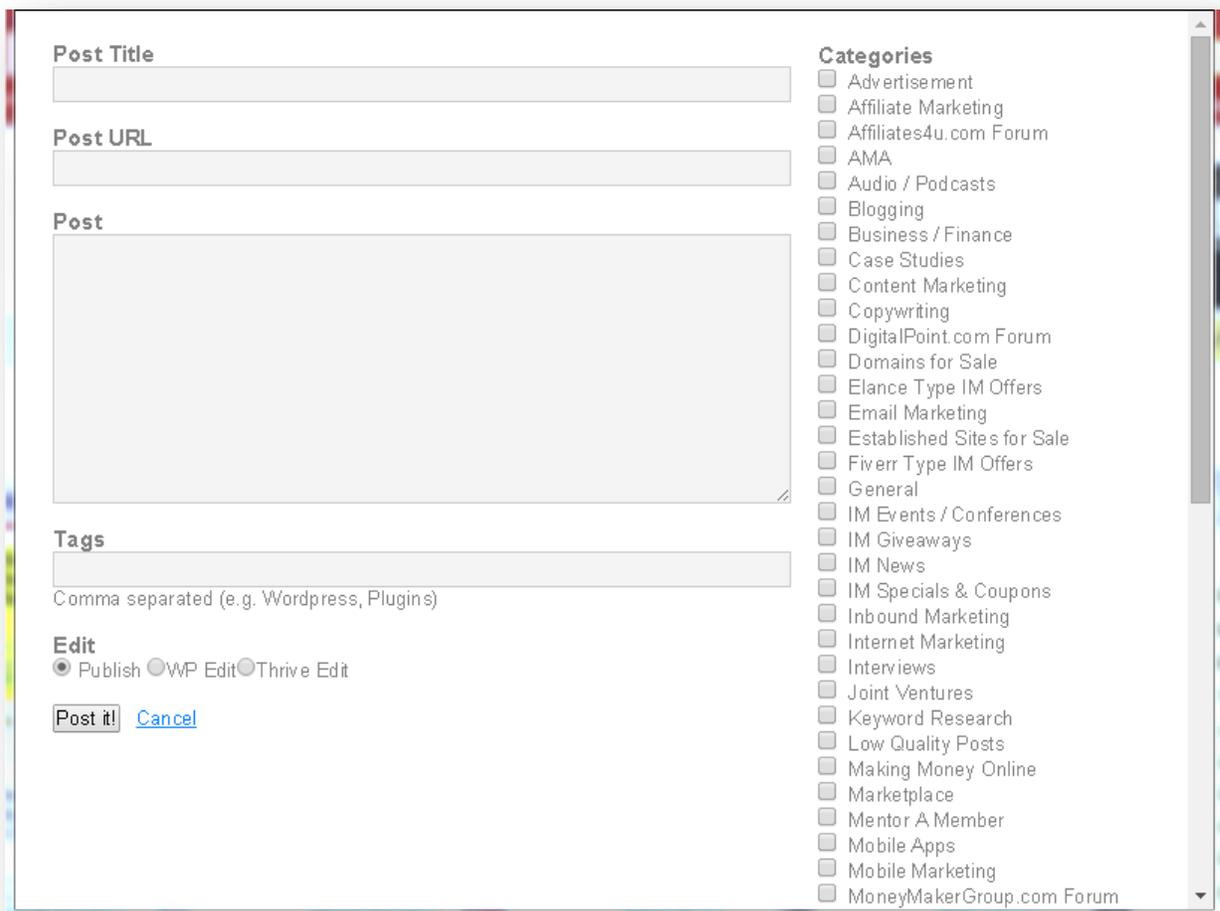

Step 1: Go to <http://kingged.com/> and sign up for a new account.

The screenshot shows the Kingged.com website interface. At the top, there is a navigation bar with the site logo, social media icons, a search bar, and links for Login, Register, Members, Social, and Submit Link. Below the navigation bar is a large banner advertisement for Kingged.com widgets, with the text "GET PAID \$60 TO \$600+ TO PUT KINGGED.COM WIDGET ON YOUR BLOG APPLY HERE! Do Nothing Else After That, Yet Get Paid Monthly." Below the banner are several navigation tabs: "Who's Doing What", "Share An Article", "Submit Unique Post", "Ask or Discuss", and "Sell or Promote Your Products/Services". There are also filters for "Top All", "Top 24hrs", "Top 48hrs", "Top 7Days", "Top 30Days", and "Top 365Days", along with a "New Incoming" tab. The main content area is divided into two columns: "Internet Marketing" and "Making Money Online". Each column contains several article cards with titles, author information, and comment counts. On the right side, there is a "Sign IN" sidebar with fields for "Username:" and "Password:", a "Remember Me" checkbox, a "Forgot Password" link, and buttons for "Log In" and "New Account". A red arrow points to the "New Account" button, which is circled in red.

Step 2: Activate your account, login, and click “Submit Link.”

The screenshot shows the Kingged.com website interface. At the top, there is a navigation bar with links for Main Categories, Kingged Marketplace, Featured Offers, Featured Kinggers, Invest In Kingged, and Partner With Kingged. The Kingged.com logo is prominently displayed, along with social media icons for Twitter, Facebook, and Google+. A search bar is located on the right side of the header. Below the header, there is a large banner advertisement for Kingged.com widgets, with the text "GET PAID \$60 TO \$600+ TO PUT KINGGED.COM WIDGET ON YOUR BLOG" and "APPLY HERE!". A red circle highlights the "Submit Link" button in the top right corner, and a red arrow points from the banner area towards it. The main content area is divided into sections for "Internet Marketing" and "Making Money Online", each featuring several article cards with titles, author information, and comment counts. A yellow notification box on the right side of the page reads: "Please forgive us for the errors and loading issues. We are currently upgrading the site and doing a couple heavy construction, hence the issues. Please bear with us for a bit more. We will all love the site more when done. THANKS! Close".

Step 3: A pop-up window will appear. Fill in the form and select the appropriate categories. From my experience, I received the most traffic from the “Internet Marketing” and “Affiliate Marketing” categories. Post it! I recommend that you spend quality time interacting with others on the site and posting on others on Kingged. The amazing thing about Kingged is that they give away cash **very** often to their members just for participating.

The image shows a screenshot of a web form for creating a post on Kingged. The form is divided into several sections:

- Post Title:** A single-line text input field.
- Post URL:** A single-line text input field.
- Post:** A large multi-line text area for the main content of the post.
- Tags:** A single-line text input field with a note below it: "Comma separated (e.g. Wordpress, Plugins)".
- Edit:** A section with three radio buttons: "Publish" (selected), "WP Edit", and "Thrive Edit".
- Buttons:** "Post it!" and "Cancel" buttons.
- Categories:** A vertical list of 30 categories, each with an unchecked checkbox. The categories are: Advertisement, Affiliate Marketing, Affiliates4u.com Forum, AMA, Audio / Podcasts, Blogging, Business / Finance, Case Studies, Content Marketing, Copywriting, DigitalPoint.com Forum, Domains for Sale, Elance Type IM Offers, Email Marketing, Established Sites for Sale, Fiverr Type IM Offers, General, IM Events / Conferences, IM Giveaways, IM News, IM Specials & Coupons, Inbound Marketing, Internet Marketing, Interviews, Joint Ventures, Keyword Research, Low Quality Posts, Making Money Online, Marketplace, Mentor A Member, Mobile Apps, Mobile Marketing, and MoneyMakerGroup.com Forum.

Bonus Fast Traffic Secret - Signature Hijacking (FREE)

This isn't new at all... forum marketing has been around forever...

Maybe you're right, but people do it incorrectly nearly every time. There is a special way to boost your forum traffic efforts significantly. Forum signature traffic works **very** well for list building and making sales. I have used this extremely effectively for not only selling WSOs, but also getting coaching and consulting clients (which brings me \$1,000's each month).

You will need to do the following:

a.) Locate a very highly-populated forum in your niche that allows signatures (if you are in IM/MMO niche the Warrior Forum works flawlessly). Add a signature that links to a squeeze page, sales page, or your website.

b.) Create controversial debates in a very popular category (ex. - Main Internet Marketing Discussion Forum on WF). Remain active in any conversations that you start. Make sure that **everyone**, both newbie and expert can participate.

OR

c.) Respond to threads within the first 3 posts. You want to make sure that your signature is seen above the fold. You also want to make sure that you respond mainly to threads that are relevant to the content of your signature. If a thread is called “How do I start making money online?”. it doesn’t really help to have a signature that says “Learn how to increase your downline.” A signature labeled “Having trouble making money online? This is what helped me.” will work **much** better. As a marketer, learn to be intentional in **everything** you do.

The Icing On The Cake

The greatest part about these methods is that...

...they can all be **OUTSOURCED!** If you have ever purchased my products before, you know how much I love outsourcing. Outsourcing can take all of the work out of getting traffic for only a few dollars per hour. The great thing about these traffic sources is that traffic will still keep coming passively even after you stop working! This makes these methods even more ideal for outsourcing. \$5-15 of outsourcing could net you a week's worth of traffic or even more.

Here are some tips for seeking a virtual assistant:

- Look for those who are listed as having good English and a solid writing ability
- Look for those who are listed as being proficient in data entry
- Look for those who are listed \$1-5 per hour (yes, that is very possible, as you will see)

There a tons of different options for outsourcing...
